

## On-Campus Housing

The residence halls at Gillette College are a home away from home for students residing on campus. Our residence halls create a robust living and learning environment and provide a supportive social structure within. Students can explore many different educational and social growth possibilities.

If you are wondering if you should live on campus, consider these benefits:

- A higher level of safety and security than living off campus.
- Higher satisfaction with the college experience
- Statistically achieving a higher GPA than those living off-campus
- Staying on track for graduation by taking a minimum of 12 credits each semester (9 credits being from Gillette College minimum per semester – 3 credits allowed from other institutions per semester.)
- Convenient access to campus resources
- Higher level of involvement with campus activities and gaining various leadership skills
- Increasing likelihood of completing your degree
- **Affordability. All rooms include unlimited laundry, internet, and other utilities.**
